

Jones—Heavens, Jemima! Look what came back from the laundry. Three pairs of women's stockings and five petticoats. Why, I've got some woman's laundry instead of my own.

Anty Drudge—"I'll tell you how to avoid mistakes like that. Get Fels-Naptha Soap and have your things washed the easy way at home. They'll be cleaner and fresher and wear twice as long, and then you won't get them mixed with other people's clothes."

You owe it to yourself and your folks to use Fels-Naptha Soap.

You owe it to yourself to cut down the time of washing clothes one-half, to save yourself its drudgery, to make it easier and more pleasant.

You owe it to your folks to quit making washday a day of cold meals, and bad temper.

Fels-Naptha Soap washes all the clothes in cool or lukewarm water, without boiling, in little time, with no hard rubbing, and makes them cleaner, whiter and sweeter than any other way.

Follow directions on the red and green wrapper.

## GOOD RESULTS FROM WEBB LAW

Anti-Saloon League Members of Kentucky to See That It Is Enforced

### DRY TERRITORY TO BE DRY

Efforts To Be Made To Have Enacted In All States Laws Similar To the Kentucky Statute, Which Prohibits Express Companies From Carrying Liquor From Wet To Dry Territory.

Special.—The triumphant exultation of the leaders of the Anti-Saloon league over the enactment of the Webb law is manifest in many directions.

An active worker and prominent Kentucky member of the league, when recently asked concerning the effect of the law, made the following statement: "We hope for great and good results from the Webb law, and we intend to see that it is enforced."

"It is not so much the bootlegger and blind-tiger peddler that we were after when we asked congress to pass the Webb law. The local state authorities can always get after them, but what we want is some means of stopping shipments for personal use."

"What is the use of our going to the effort and expense of voting a county or a state dry if every man in such territory can order and get liquor shipped to him for his own use and the use of his friends and family? It is this practice which we intend to break up."

"Where a territory is voted dry, we intend that it shall be really dry."

"We demanded of congress and secured the passage of the Webb law after years of effort, and we have no intention of letting a stream of whisky flow into dry territory protected by the excuse of a right to get the stuff for personal use."

"It is this very personal use traffic which we intend to stop."

"If the country is to be taught temperance by our efforts, this shipping of liquor to the homes must be stopped. This is the logical attitude of the Anti-Saloon league."

"Having, as we claim, the right to secure the regulation of the people in their personal habits, so far as the use of liquor is concerned—not only in public, but in their homes—we will seek to use the strong arm of the law in enforcing our plans."

"To this end efforts are being made to have enacted in all the states laws similar to the Kentucky statute which prohibits express and railroad companies from carrying liquor from a 'wet' county to a 'dry' county for personal use."

"There will be real prohibition when a man can not get a quart of liquor shipped to him for his household use, but it is surely coming, and the people of Kentucky and the rest of the country may as well prepare to welcome the day."

#### LETTER FROM KANSAS.

Holsington, Kan., May 18, 1913.

Dear Editor Big Sandy News:—

As it has been some time since I have written a letter to the Big Sandy News, I will endeavor to give you a few items from Western Kansas.

We have been experiencing some pretty hard times for the past five or six months no business on the railroad all the big shop force is cut as low as will permit to run them, but things are beginning to look considerable better in the past week. We are having some big rains mostly all over the state and from the reports we are going to have a bumper wheat crop. The largest ever known in Kansas. The Kansas Weekly Capitol states to-day that it will take 20,000 men to harvest the enormous wheat crop in seven counties of the state, and there are calls for men to harvest at about June 15 to June 20. If there

are any men in Kentucky that wants to come to Kansas they can come during harvest time for one cent per mile during that season, this will be a good chance for some Kentucky boys to come west.

The farmers are all nearly done planting corn, the alfalfa crop is ready for the first cutting. All the merchants are beginning to lay in the harvest supplies which consists of several thousand dollars worth of can goods and other groceries. The hardware men are buying the header machines by the dozens, and it looks like something doing in the harvest field. The writer of this piece went to Plevna, Kansas about three weeks ago and visited his cousin Mrs. Josephine Dennis who he had not seen for 23 years. She was former Mrs. Josephine Hays when in Kentucky after first married.

Dr. Burton, of this city has traded for a fine residence on north Main and 5th street. He now has a fine home. Dr. is having plenty of work to do as there are plenty cases of measles in this city.

This city was thrown into quite an excitement on last Wednesday when it was reported that a lady had shot and killed herself. Mrs. Hamm was formerly from Tenn. She came here about February 8, 1913. She leaves a husband and two small children, three and six years old. She has been married before her first husband shot his self with the same revolver about four years ago.

As I cannot think of anything more to write I will close hoping this will not miss the press and hit the waste basket.

Yours truly,  
M. F. ROSE.
